

Happy New Year!

All of the team at The Test Centre Training would like to wish our fantastic customers a happy, healthy & successful 2022! Thank you all for your continued support & we look forward to working with you throughout this year & beyond.

Together, let's make 2022 a productive one! Why not add a qualification to your skill set? Join us for our bike course (class 1&2), or get prepared for the future; join us on our hybrid & electric course. If you're looking for a change of direction, consider our MOT Managers course; whether you want a promotion or are considering opening your own MOT centre. 2022 is a year full of hope and excitement and we look forward to supporting you throughout your automotive career.

Don't forget it's now the last few months to get your Annual Training & Assessment done. **Remember testers will be suspended if they do not complete their mandatory training & assessment by 31st March 2022.**

This year we have listened to feedback from testers & garage owners. It's clear that last year's assessment was difficult, therefore our new packages are aimed at providing testers with the necessary confidence & skills to complete the assessment & also support businesses to continue running their day-to-day business.

Bronze

Assessment only

Completed remotely. Trainees will be required to complete & record their own 3 hours of training.

Silver

3 hours of Training & Assessment

All fully supported throughout with our qualified trainers.

Gold

1 day Upskill

Silver package PLUS workshop session with our trainers to go through the MOT routine & ensure testers are fully up to date.

We are completely flexible; courses can be completed in the evenings or weekends. We can plan for courses on an individual or group basis, on or offsite. Just give us a call to discuss your individual requirements.
